

WELCOME TO THE BIG LEAGUES

Hello Sports Fans,

About four years ago Alex P. Thorn set out to re-create Professional Sports entirely in the Virtual Realm, we have developed software and a program that totally re-creates professional sports in the virtual realm, our software allows large numbers of people to log onto our Servers and play sports games in real time head to head competition. These “**Cyber Athletes**” will be **playing for keeps**, we will operate an organized professional league where athletes can play for prize money in the \$Millions.

In our attempt to re-create the pro-sports business model we have taken our programming one step further, our “**Cyber Athletes**” have something called a “**Cyber Agent**”, a Cyber Agent is a network marketing referral structure that pay agents to refer in more athletes advertisers and endorsers, these agents shall actively manage the careers of “**Cyber Athletes**”.

Sports Agent!!, we really mean it, Cyber Agents can operate Cyber Agency’s that have hundreds even thousand of Agents under them, and managing the careers of 100,000’s of Cyber Athletes all over the world.

Being a “**Cyber Agent**” www.acsports.com/acagent can be very lucrative, just as **David Falk, Founder and CEO of SFX Entertainment Group**, started with one athlete he has turned his vision and drive into a Multi Billion Dollar Global Concern, as a matter of fact SFX Entertainment is the biggest entertainment management company in the world.

Our Cyber Agents now have the same opportunity, this is a grass roots opportunity with a young and dynamic company called Associated Cyber Sports, you can visit our web-site by clicking on the link www.acsports.com .

When we say we are totally re-creating Professional Sports we aren’t joking, our programming went one step further and we created the “**Cyber Team Solution**” this is a Virtual Pro-Sports Team that will be operated in exactly the same manor that say the **L.A. Lakers** would be, the Cyber Teams will draft players that are managed by Agents exactly like a real life Pro-Sports Team.

Corporate Sponsorship and Player Endorsements are the domain of the Cyber Agents, Corporations from around the world will want to advertise in our **Global Cyber Arena**,

and Agents will negotiate Advertising, Sponsorships and Player Contracts and receive fees associated with Player Management and League Development, agents also receive a percentage of their players winnings, 7% to be exact, and so do the Teams, 3%, Agents and Teams also receive signing bonuses monthly for every player they manage, with the Internet as your playing field the potential to manage a 100,000 players or more is not inconceivable and very possible, With recurring monthly revenues from every player and endorsement.

We really pay our people, our Agent pay plan is very lucrative!, lets say an agent gets signing bonuses on 100,000 Cyber Athletes over a three month period the Agent would earn \$600,000.00.

Not bad for sitting on the Computer and Playing Games. Our Motto is **“Play Hard, Win Big”** and we pay **“Real Cash To The Best Players”**.

Cyber Teams make even more, Teams have the ability to attract Big Advertisers and reach markets in our Global Sports League, **our prime demographic is the envy of all media**, our target market is the 16 to 35 year olds, we believe that a highly organized Cyber Sports League could expand this market to reach even the elderly, professional and student markets, we also can target with extreme accuracy, we will be very actively targeting our marketing to reach your target market including women and couples, by selecting different sports for sponsorship and advertising we can very easily reach your market.

Our Cyber Sports League will reach a market demographic that is young dynamic upwardly mobile tech savvy consumers without the need to invest vast amounts of money in global advertising campaigns.

For more information about this exciting opportunity please feel free to call or write us.

Real Cash To The Best Players
